An act to amend Section 1765.150 of the Health and Safety Code, relating to mobile health care units.

LEGISLATIVE COUNSEL'S DIGEST

SB 1213, as amended, Ducheny. Mobile health care units: site reporting requirements.

Existing law establishes the Mobile Health Care Services Act under which the State Department of Public Health regulates the operation of a mobile unit, as defined, as an adjunct to a licensed parent health facility or clinic, an independent-freestanding clinic, or another type of approved mobile unit.

Existing law provides that a mobile unit shall not operate at any site, unless the site has been reported by the licensee to the department at least 15 days before the mobile unit's first visit to the site. Existing law also provides that prior to the operation of a mobile unit at any site for the first time, the licensee shall report the site to local authorities for purposes of obtaining approvals as provided under the above provisions.

This bill would eliminate the above reporting requirements. *The bill would require that the licensee of a mobile unit operating at a new site report the site to the department within 72 hours after the mobile unit's first visit to the site.*

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
